Company Description

Electronic Braille LLC. is a manufacturer of a patent pending, very quiet classroom / office friendly multi-function Braille embosser "Cosmo" and the cloud based Braille Education Remote Tool "BERT. Our products are designed, serviced and manufactured in Rochester, NY.

BERT is an interactive cloud based Braille teaching system. BERT is not a video. Braille typed by a student on the Cosmo Braille keyboard can be seen and corrected by a teacher at a remote location in real time. BERT gives a virtual side by side teaching and learning experience. BERT can be used for blind or deaf blind students.
